Professional_Experience () {

BLACK ENTERPRISE || November 2008 to present || New York, NY.

A 40 year old publication with an emphasis on wealth creation, entrepreneurship, and career development;

Web Production Manager – Lead Developer overseeing team of five.

Responsible for managing the production of all interactive properties including main site and partner sites. Tasked with working closely with a team to develop project schedules and documentation. Duties include the management of external design and technical resources, development of internal operations, vendor management, billing, and quality assurance.

- Performed full site redesign and reimplementation using custom theme built in PHP on Wordpress platform;
- Wrote custom functions in PHP to allow section editors to customize landing page layouts in custom built admin panel;
- Created plug-in free slideshow functionality in PHP using native operations within Wordpress Core therefore allowing our 35 editors to create rich content;
- Using the Brightcove API and ECHOVE SDK, I was able to create a video archive and posting method that allows our broadcast department to easily add new content to the site in a timely and effective manner;
- Improved overall site performance and speed by 60% by leveraging cache, simplified database queries, and 3rd party tools such as YSlow and PageSpeed;
- Designed and developed 2010 NABJ National Media Awards finalist package “[Obama's First Hundred Days](#)”.
- Lead and sole Developer on the following sites and channels:
 - [Obama's First Hundred Days](#)
 - 2009 & [2010 Entrepreneurs Conference](#)
 - 2009 & [2010 Golf & Tennis Challenge](#)
 - [2009 & 2010 B.E. 100S](#)
